

RONDO DOGE® DATA SHEET

Tilt Mixer ARB Series Model 160 ARB

Features

Mixer is raised to and tipped at the set discharge height, releasing the dough onto a table or into a divider.

Mixer can be tipped to the right or to the left or to both sides, at equal or different heights, depending on the user's specification upon manufacture of the mixer.

Bowl cover is opened when the command is given to raise the mixer, so that the mixer reaches the discharge height ready to allow the dough to be emptied.

Technical Data

Dough capacity	350 lbs.
Flour capacity	220 lbs.
Bowl volume	68.7 gal.
Bowl diameter	33.5 in.
Floor to bowl rim height	44.9 in.

Dimensions

Width - B	75 in.
Length - D	84.6 in.
Height - E	128.5 in.
Max. overall height - F	131.5 in.
Max. discharge height - G	79.5 in.
Base width - H	43.7 in.
Weight	3,784 lbs.

Electrical

220 volts, 3-phase, 60 cycles,	
63 AMPS	
480 volts, 3-phase, 60 cycles,	
35 AMPS	
Power of spiral 1st speed	10 HP
Power of spiral 2nd speed	14 HP
Bowl power	1 HP
Hydraulic power	1.5 HP

Shipping

Crated weight	4,806 lbs.
Crate dimensions	91" x 65" x 95"

NOTE: A rigger is required for delivery.
